

We produce parts according to customer requirements

company profile

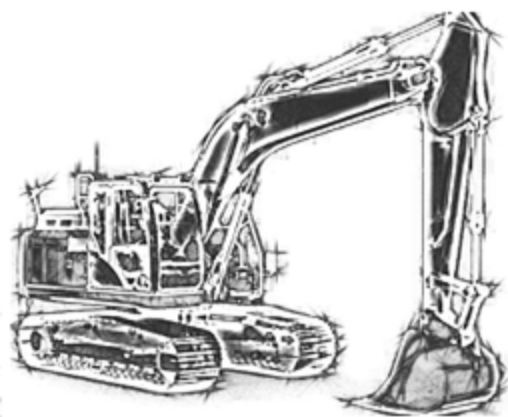

JRS Farmparts is manufacturing and exporting high quality range of EXCAVATOR PINS AND BUSHES. Our product range also includes Tractor Linkage Parts, Harvesting Parts, Agriculture Implements & Spare Parts.

We believe in research, design, engineering, quality testing, packing and then merchandising. Our products by our valued customers in the abroad are gladly appreciated which builds the pillars of encouragement to us. Our produce of goods confirms to the international standards and we are successfully exporting them to more than 40 countries worldwide.

We insist to deliver high quality parts, we value honesty and integrity, and we offer sincere service. We invite you to walk with us, and forge a long-term cooperation together.

Excavator Spare Parts

Digging Arm Front-End Parts:

such as Bucket Pins, Steel and Bronze Bushes for most popular sizes of micro, mini, midi and full-sized excavators.

Locking Pins: such as Lynch pins, R-Pins and Cotter pins.

At JRS Farmparts, we offer high quality pins & bushings and tolerance for inner diameter could be within 0.03mm, concentricity and dimensions are well promised.

Customer demand is met by carrying out machining operations in-house, in our own manufacturing shop complying with ISO 9001:2015 certifications.

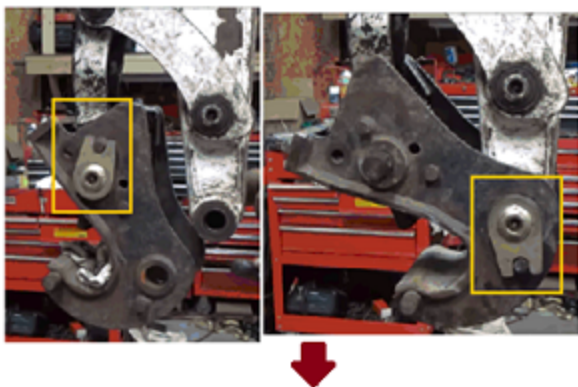

Below are the machines available at our Machining Workshop:

*CNC Turning Machines,
CNC Vertical Machining Center,
Grinding Machines*

Every step of heat treatment is carried out under strict standards, with scientific temperature and duration in the furnace, ensuring best hardness and induction depth. Meanwhile, each time before moving onto next manufacturing step, all pins & bushings will be 100% inspected.

Bucket PINS

Our machines are capable of reaching precise process tolerances.

Material: En8 / En19

Finish: Golden Zinc Plated

Silver Zinc Plated

Auto Black

Self with RPO Oil

Pins are also available with Surface
Hardening - Induction (50-55 HRC)

Grease Nipples also available

Cast Bronze / Brass Bushings (with and without Oil & Grease groove)

Cast Bronze Bushings

The continuous casting process assures a uniform bronze structure throughout, free from porosity and hard particle inclusions commonly found in other cast processes.

Material: Gun Metal
Finish: Self Golden
Packing: As required

Brass Bushings

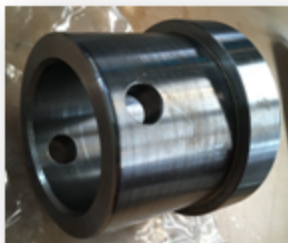

Material: Brass
Finish: Self Golden
Packing: As required

Features:

- * High Tensile Strength
- * Durability
- * Precision Engineered
- * Accurate Configurations

Steel Bushes

(with and without Oil & Grease groove)

Material: MS / En 8 / En19 / 20mncr5

Finish: Self with RPO Oil

Packing: As required

Hardness: 38-45 HRC or more

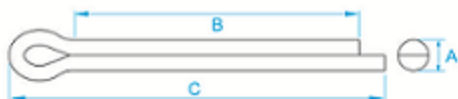

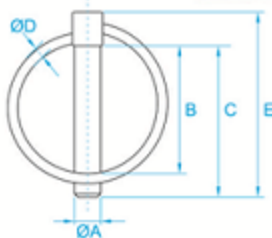

Locking Pins
